TO OUR PATRONS.

In collecting and compiling the material for the following pages, we have aimed at accuracy and completeness. Not a building within the city limits, including also West Troy, Green Island and Lansingburgh, has been passed without making the proper effort to secure the names and business of its occupants. With what degree of success our labors have been crowned, we leave to a generous public to decide, and for their guidance we make the following statement:

The whole number of names in the Directory of last year was 14,706, the number in this edition is 15,431; increase over last year 725.

The collecting of the names has been done only by men who have had several years' experience at the business, and we feel it but justice to them to say that without their faithful attention to the duties of a Directory canvasser this large increase of names would not have been attained. These facts, together with our assurance that the proper care has been bestowed on compiling all its parts, we hope may be sufficient to satisfy all that something more than the usual credit is but our just due.

We take pleasure in referring those who consult the Directory, to the names of our most prominent business men which are to be found on the opposite page; every class of business is represented by them, and we predict they will be found prepared at all times to serve the people in the most satisfactory manner. The figures opposite their names refer to the page on which their business cards may be found.
